

**APPLICATION TO RECEIVE CIMMYT IMPROVED  
MAIZE GERMPLASM PRODUCT FOR COMMERCIALIZATION**

*All information provided by the applicant hereunder shall be treated with utmost confidentiality.*

**FORM B: CIMMYT Improved Germplasm Product Information**

*Please fill out a **SEPARATE COPY** of this form for **EACH** product you are requesting.*

1. Name of Organization: \_\_\_\_\_

2. CIMMYT Product code: \_\_\_\_\_

3. If granted access to CIMMYT parental lines of a requested hybrid, how soon do you expect the hybrid would become available on the market? \_\_\_\_\_ months

4. Please estimate how many metric tons (MT) of CERTIFIED SEED you expect to **produce** in each country in each of the first 3 years after product release (attach additional sheet if necessary):

Country where produced	Year 1		Year 2		Year 3	
		MT		MT		MT
		MT		MT		MT
		MT		MT		MT
		MT		MT		MT
		MT		MT		MT
		MT		MT		MT
		MT		MT		MT

6. Please list the **specific countries** where you would **market** this product, if allocated by CIMMYT (please list each country **individually by name**; if necessary, you may attach additional sheets):

7. Why is this requested CIMMYT product important for your institution's product portfolio?

**Application ID: \_\_\_\_\_**

Date received: \_\_\_\_\_

4. CIMMYT may charge mutually agreed recovery of cost for the quantity of seed supplied for CIMMYT Hybrids and Parents. In the table immediately following this paragraph, please indicate the quantities of each type of seed you would require from CIMMYT to achieve your initial production targets, **within the limits specified in the following table “Details of seed supply”**, below.

Type of seed	Quantity
Hybrid seed (for demos and/or NPT)	kg
Female parent seed	kg
Male parent seed	kg
Grand female parent seed (in case of three- way hybrids)	kg
Grand male parent seed (in case of three-way hybrids)	kg

**Details of seed supply\***

Class of Seed	On allocation of Product	Any additional seed material requested by PARTNER INSTITUTION
<b>Breeder's seed</b>		
Inbred parent	Up to 1 kg of each Parent line at no cost for seed.	For each additional kg up to 10kg maximum (beyond the 1 kg of free seed), cost recovery fee is US \$7/kg (plus shipping costs, if any). One growing season advance notice is required.
Single-cross female	N/A	N/A
<b>Basic Seed</b>		
Inbred parent	N/A	N/A
Single-cross female	N/A	N/A
<b>Hybrid seed</b>		
NPT	Up to 4 kg of each entry at no cost for seed.	For each additional kg up to 10kg maximum (beyond the 4 kg of free seed), cost recovery fee is US \$7/kg (plus shipping costs, if any). One growing season advance notice is required.
Demo	Up to 4 kg, upon request at no cost for seed.	For each additional kg up to 10kg maximum (beyond the 4 kg of free seed), cost recovery fee is US \$7/kg (plus shipping costs, if any). One growing season advance notice is required.

**\*Note:** Partner Institution has to pay in advance for the shipping and any other related costs. Seed may not be immediately available in sufficient quantities for immediate shipment; please allow for up to one growing season, or up to two growing seasons in case applicable phytosanitary regulations require a quarantine period.
