Ref: Implementing climate smart agriculture and climate smart villages in Bihar

Climate change is one of the major challenge for agriculture in Bihar. The Govt of Bihar under the dynamic leadership of our Hon'ble Chief Minister have taken a decision to develop and disseminate climate smart agriculture. Learning from the research programs and farmers participatory work and climate smart villages in Bihar implemented by CIMMYT-BISA under CCAFS, the Govt of Bihar have planned to implement climate smart agriculture and climate smart villages in all the 38 districts of Bihar. Accordingly mega programs on Introduction of Climate Smart Agricultural Practices to improve the resilience of farmers through Mainstreaming Climate Smart Villages (CSVs) in Bihar have been initiated for which we acknowledge the technical support and collaboration of CIMMYT-BISA-CCAFS. Climate Smart Agriculture is also one of the important component of the Innovative Krishi Road Map of Bihar.

Thank you very much for providing us technical support for climate change agriculture.

Yours Sincerely

Director
BAMETI, Bihar, Patna
